

Glock 17 Gen 4 Open Competition Gun \$595.

Made in Austria G17 lower with ZEV Pro Trigger, Zev spring kit, NDZ Performance Trigger Stop Control Housing, light " - " trigger bar, Ghost extended slide stop and Gas Pedal (not sure of the mfr).

Slide is custom stainless steel machined to directly mount the optic, Storm Lake threaded barrel, Lone Wolf Steel Compensator, NDZ Rear Slide Racker and Lone Wolf Titanium Firing Pin. Trigger breaks just under 4lb.

Included is an almost new (very bright) PA GLx 3-moa red dot optic (PA-GLX-RS-15TL). I recently zeroed it at 15y and it shot a 0.84" 5-shot group (see photos).

Includes 2 17-rd Glock magazines, one new-never used 33rd Glock mag, paddle holster, 4 Glock Backstraps, original case and paperwork, and most of the OEM parts.

I used this in 3-gun competition and won many matches with it. This has been very lightly used, Maybe 1000rds, definitely under 2000, so for a Glock it is hardly used. I am old and no longer competing so I no longer can use this to its capability.

Prospective buyer is welcome to meet at the club for a test drive.

Buyer will need to sign a waiver acknowledging he fully aware that this gun has been modified for competition.
